

Senate the pending cloture motion, which the clerk will state.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of A. Marvin Quattlebaum, Jr., of South Carolina, to be United States Circuit Judge for the Fourth Circuit.

Mitch McConnell, Cindy Hyde-Smith, David Perdue, Mike Crapo, Mike Rounds, John Boozman, Ron Johnson, John Barrasso, Steve Daines, John Cornyn, Johnny Isakson, John Thune, James E. Risch, Richard Burr, Lindsey Graham, Thom Tillis, Roy Blunt.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of A. Marvin Quattlebaum, Jr., of South Carolina, to be United States Circuit Judge for the Fourth Circuit, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

(Mr. LANKFORD assumed the Chair.)

The legislative clerk called the roll.

Mr. CORNYN. The following Senators are necessarily absent: the Senator from Tennessee (Mr. ALEXANDER), the Senator from North Carolina (Mr. BURR), the Senator from Arizona (Mr. FLAKE), the Senator from Oklahoma (Mr. INHOFE), the Senator from Utah (Mr. LEE), the Senator from Arizona (Mr. MCCAIN), the Senator from Florida (Mr. RUBIO), the Senator from North Carolina (Mr. TILLIS), and the Senator from Pennsylvania (Mr. TOOMEY).

Further, if present and voting, the Senator from Tennessee (Mr. ALEXANDER) would have voted "yea" and the Senator from Florida (Mr. RUBIO) would have voted "yea."

Mr. SCHUMER. I announce that the Senator from Illinois (Mr. DURBIN) and the Senator from Washington (Mrs. MURRAY) are necessarily absent.

The yeas and nays resulted—yeas 61, nays 28, as follows:

[Rollcall Vote No. 182 Ex.]

YEAS—61

Baldwin	Graham	Nelson
Barrasso	Grassley	Paul
Bennet	Hassan	Perdue
Blunt	Hatch	Portman
Boozman	Heitkamp	Reed
Capito	Heller	Risch
Carper	Hoeven	Roberts
Cassidy	Hyde-Smith	Rounds
Collins	Isakson	Sasse
Coons	Johnson	Scott
Corker	Jones	Shaheen
Cornyn	Kaine	Shelby
Cotton	Kennedy	Sullivan
Crapo	King	Tester
Cruz	Lankford	Thune
Daines	Leahy	Warner
Donnelly	Manchin	Whitehouse
Enzi	McCaskill	Wicker
Ernst	McConnell	Young
Fischer	Moran	
Gardner	Murkowski	

NAYS—28

Blumenthal	Cantwell	Cortez Masto
Booker	Cardin	Duckworth
Brown	Casey	Feinstein

Gillibrand	Merkley	Stabenow
Harris	Murphy	Udall
Heinrich	Peters	Van Hollen
Hirono	Sanders	Warren
Klobuchar	Schatz	Wyden
Markley	Schumer	
Menendez	Smith	

NOT VOTING—11

Alexander	Inhofe	Rubio
Burr	Lee	Tillis
Durbin	McCain	Toomey
Flake	Murray	

The PRESIDING OFFICER (Mr. BARRASSO). On this vote, the yeas are 61 and the nays are 28.

The motion is agreed to.

The PRESIDING OFFICER. The majority leader.

LEGISLATIVE SESSION

MORNING BUSINESS

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the Senate proceed to legislative session and be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

(At the request of Mr. SCHUMER, the following statement was ordered to be printed in the RECORD.)

VOTE EXPLANATION

• Mr. DURBIN. Mr. President, I was necessarily absent for vote No. 182 on the motion to invoke cloture on the nomination of A. Marvin Quattlebaum, Jr., to be a U.S. circuit judge for the Fourth Circuit. Had I been present, I would have voted aye on the motion to invoke cloture. •

ARMS SALES NOTIFICATION

Mr. CORKER. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEFENSE SECURITY
COOPERATION AGENCY,
Arlington, VA.

Hon. BOB CORKER,

Chairman, Committee on Foreign Relations,
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of

the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 18-33, concerning the Army's proposed Letter(s) of Offer and Acceptance to the Government of Latvia for defense articles and services estimated to cost \$200 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

GREGORY M. KAUSNER,
(For Charles W. Hooper, Lieutenant
General, USA, Director).

Enclosures.

TRANSMITTAL NO. 18-33

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Latvia

(ii) Total Estimated Value:

Major Defense Equipment* \$85 million.

Other \$115 million.

Total \$200 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):

Four (4) UH-60M Black Hawk Helicopters in standard USG configuration with designated unique equipment and Government Furnished Equipment (GFE).

Ten (10) T700-GE-701D Engines (8 installed and 2 spares).

Ten (10) Embedded Global Positioning Systems/Inertial Navigation Systems (8 installed and 2 spares).

Non-MDE: Also included is one (1) Aviation Mission Planning System, five (5) Talon Forward Looking Infrared Radar (FLIR) (4 production and 1 spare), ten (10) AN/ARC-201D/E (8 production and 2 spares), ten (10) AN/ARC-231 radios (8 production and 2 spares), five (5) AN/APX-123A Identification Friend or Foe (IFF) transponder (4 production and 1 spare), five (5) AN/ARC-220 Radio (4 production and 1 spare), twenty (20) AN/AVS-6 Helmet Mounted Night Vision Devices, aircraft warranty, air worthiness support, spare and repair parts, support equipment, communication equipment, publications and technical documentation, personnel training and training equipment, ground support equipment, site surveys, tool and test equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics and program support.

(iv) Military Department: Army (LG-B-UDM).

(v) Prior Related Cases, if any: None.

(vi) Sales Commission. Fee. etc.. Paid. Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) Date Report Delivered to Congress: August 3, 2018.

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Latvia—UH-60M Black Hawk Helicopters

The Government of Latvia has requested to buy four (4) UH-60M Black Hawk helicopters in standard USG configuration with designated unique equipment and Government Furnished Equipment (GFE), ten (10) T700-GE-701D engines (8 installed and 2 spares), ten (10) Embedded Global Positioning Systems/Inertial Navigation Systems (8 installed and 2 spares). Also included is one (1) Aviation Mission Planning System, five (5) Talon Forward Looking Infrared Radar (FLIR) (4 production and 1 spare), ten (10) AN/ARC-201D/E (8 production and 2 spares), ten (10) AN/ARC-231 radios (8 production and 2 spares), five (5) AN/APX-123A

Identification Friend or Foe (IFF) transponder (4 production and 1 spare), five (5) AN/ARC-220 Radio (4 production and 1 spare), twenty (20) AN/AVS-6 Helmet Mounted Night Vision Devices, aircraft warranty, air worthiness support, spare and repair parts, support equipment, communication equipment, publications and technical documentation, personnel training and training equipment, ground support equipment, site surveys, tool and test equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics and program support. The estimated total case value is \$200 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a NATO ally. These UH-60 helicopters will allow for interoperability with U.S. and NATO forces in rapid response to a variety of missions, and quick positioning of troops with minimal helicopter assets.

The sale of these UH-60 helicopters to Latvia will significantly increase its capability to provide troop lift, border security, anti-terrorist, medical evacuation, search and rescue, re-supply/external lift, and combat support in all weather. Latvia intends to use these helicopters to modernize its armed forces and expand its existing Army architecture in its efforts to provide multi-mission support in the region. Latvia will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Company in Stratford, Connecticut; and General Electric Aviation Company (GEAC) in Lynn, Massachusetts. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale may require the assignment of an additional three U.S. Government and five contractor representatives in country full-time to support the delivery and training for approximately two-to-five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 18-33

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The UH-60M aircraft is a medium lift four bladed aircraft which includes two T-700-GE 701D Engines. The aircraft has four Multifunction Display (MFD), which provides aircraft system, flight, mission, and communication management systems. The instrumentation panel includes four Multifunction Displays (MFDs), two Pilot and Co-Pilot Flight Director Panels, and two Data Concentrator Units (DCUs). The Navigation System will have Embedded GPS/INS (EGIs), and two Advanced Flight Control Computer Systems (AFCC), which provide 4 axis aircraft control.

2. The H764-G EGI provides GPS and INS capabilities to the aircraft. The EGI will include Selective Availability Anti-Spoofing Module (SAASM) for secure GPS PPS if required. The EGI contains sensitive technology.

3. The AN/ARC-231, Very High Frequency/Ultra High Frequency (VHF/UHF), Line-of-Sight (LOS) Radio with frequency agile modes, Electronic counter-countermeasures (ECCM), UHF Satellite Communications (SATCOM), Demand Assigned Multiple Access (DAMA), Integrated Waveform (IW), Air Traffic Control (ATC) channel spacing is op-

erator selectable in 5, 8.33, 12.5, and 25kHz steps. The antennas associated with this radio contain sensitive technology.

4. The AN/APX-123A, Identification Friend or Foe (IFF) Transponder, is a space diversity transponder and is installed on various military platforms. When installed in conjunction with platform antennas and the Remote Control Unit (or other appropriate control unit), the transponder provides identification, altitude, and surveillance reporting in response to interrogations from airborne, ground-based, and/or surface interrogators. This item contains sensitive technology.

5. The AN/ARC-201D/E, Single Channel Ground to Air Radio System (SINCGARS), is a tactical airborne radio subsystem that provides secure, anti-jam voice and data communication. The integration of COMSEC and the Data Rate Adapter (DRA) combines three Line Replaceable Units into one and reduces overall weight of the aircraft.

6. The AN/ARN-149, Automatic Direction Finder (ADF) Receiver, is a low frequency radio that provides automatic compass bearing on any radio signal within the frequency range of 100 to 2199.5 kHz as well as navigation where a commercial AM broadcast signal is the only available navigation aid.

7. The AN/ARN-153, Tactical Airborne Navigation (TACAN) System, is a full featured navigational system that supports four modes of operation: receive mode; transmit receive mode; air-to-air receive mode; and air-to-air transmit-receive mode. The TACAN provides a minimum 500-watt transmit capability with selecting range ratios of 30:1 or 4:1 which is accomplished through the automatic gain control (AGC) enable/disable switch, the 1553 bus, or the RNAV (ARINC) input bus.

8. The AN/ARN-147, Very High Frequency (VHF) Omni Ranging/Instrument Landing System Receiver, that provides internal MIL-STD-1553B capability and is MIL-E-5400 class II qualified. It meets international operability requirements by providing 50-kHz channel spacing for 160-VOR and 40-localizer/glideslope channels.

9. The TALON Forward Looking Infrared Radar (TALON FLIR) is a compact multi-sensor thermal imaging system utilized for personnel recovery. Search and rescue missions are supported with the thermal imaging, daylight camera, and laser rangefinder payloads. Includes Joystick Control Unit (JCU).

10. AN/ARC-220, High Frequency (HF) Radio multifunctional, fully Digital Signal Processing (DSP) high frequency radio for rotary wing applications. Provides embedded Automatic Link Establishment (ALE), serial tone data modem, text messaging, GPS position reporting and anti-jam (ECCM) functions is Embedded ECCM and data modem.

11. EBC-406 (Emergency Locator Transmitter) is loaded with country unique codes (at delivery in country) that aid in the recovery of a down aircraft/personnel with a loud beeping tone and flashing LED. The ELT transmits on 406.028 MHz, the civil 121.5 MHz, and the military 243.0 MHz emergency frequencies.

12. AN/AVS-6 (Helmet mounted Night Vision Goggles) is a lightweight, binocular, night vision imaging system developed by the U.S. Army specifically for helicopter flying. The system can be mounted to a variety of aviator helmets, including the SPH-4B, HGU-56P, HGU-55P, HGU-55G, HGU-26P and Alpha. A 25mm eye relief eyepieces easily accommodate eyeglasses. Low-profile battery pack improves aviator head mobility and increases battery life. Other features include flip-up/flop-down capability, simple binocular attachment, individual interpupillary adjustment, tilt, vertical and fore-aft adjustments to fit all aviators.

13. If a technologically advanced adversary were to obtain knowledge of specific hardware, the information could be used to develop countermeasures which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.

14. A determination has been made that Latvia can provide substantially the same degree of protection for sensitive technology being released as the U.S. Government. This proposed sustainment program is necessary to the furtherance of the U.S. foreign policy and national security objectives outlined in the policy justification.

15. All defense articles and services listed on this transmittal are authorized for release and export to the Government of Latvia.

DEFENSE SECURITY
COOPERATION AGENCY,
Arlington, VA.

Hon. BOB CORKER,
Chairman, Committee on Foreign Relations,
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 18-16, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Government of Kuwait for defense articles and services estimated to cost \$40.4 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,
CHARLES W. HOOPER,
Lieutenant General, USA, Director.

Enclosures.

TRANSMITTAL NO. 18-16

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Kuwait

(ii) Total Estimated Value:
Major Defense Equipment* \$24.1 million.
Other \$16.3 million.
Total \$40.4 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):
One thousand twenty (1,020) Mk-82 500 lb. bombs
One thousand two (1,002) Mk-83 1000 lb. bombs
Six hundred (600) Mk-84 2000 lb. bombs

Non-MDE: also included in the sale are general purpose bomb components and fuzes, support and test equipment, publications and technical documentation, personnel training and training equipment, transportation, facilities and construction, U.S. Government and contractor technical and logistics support services, and other related elements of logistic and program support.

(iv) Military Department: Air Force (KU-D-AAC).

(v) Prior Related Cases, if any: KU-P-AAV (Navy/1992)—\$22M.

(vi) Sales Commission. Fee. etc., Paid. Offered. or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: None.

(viii) Date Report Delivered to Congress: August 2, 2018.

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION
Kuwait—Munitions

The Government of Kuwait has requested to buy one thousand twenty (1,020) Mk-82 500

lb. bombs, one thousand two (1,002) Mk-83 1000 lb. bombs and six hundred (600) Mk-84 2000 lb. bombs. Also included in the sale are general purpose bomb components and fuzes, support and test equipment, publications and technical documentation, personnel training and training equipment, transportation, facilities and construction, U.S. Government and contractor technical and logistics support services, and other related elements of logistic and program support. The estimated cost is \$40.4 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a regional partner which is an important force for political stability and economic progress.

The proposed sale will improve Kuwait's capability to meet current and future threats within the region. Kuwait intends to use these munitions with its current fleet of F/A-18 aircraft. Kuwait will have no difficulty absorbing these munitions and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The U.S. Air Force will award contracts when necessary to provide the defense articles ordered if items ordered are not available from U.S. stock or are considered lead-time away. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

DEFENSE SECURITY
COOPERATION AGENCY,
Arlington, VA.

Hon. BOB CORKER,
*Chairman, Committee on Foreign Relations,
U.S. Senate, Washington, DC.*

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 18-29, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of Mexico for defense articles and services estimated to cost \$41.6 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

CHARLES W. HOOPER,
Lieutenant General, USA, Director.

Enclosures.

TRANSMITTAL NO. 18-29

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Mexico.

(ii) Total Estimated Value:

Major Defense Equipment * \$14.0 million.
Other \$27.6 million.

Total \$41.6 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):

Six (6) Evolved Seasparrow Tactical Missiles (ESSM).

Two (2) Evolved Seasparrow Telemetry Missiles.

Non-MDE: Also included are one (1) MK56 VLS launcher (8-cell), eight (8) MK30 canisters, eight (8) MK783 shipping containers, spare and repair parts, support and test equipment, publications and technical docu-

mentation, training, USG/Contractor technical and engineering support services, and technical assistance.

(iv) Military Department: Navy.

(v) Prior Related Cases, if any:

MX-P-AAG (57mm and 25mm ammunition).

MX-P-AAN (Rolling Airframe Missile).

MX-P-AAO (Harpoon Block II Missile).

MX-P-AAS (MK54 Torpedo).

MX-P-SAA (MH-60R Helicopter and support).

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) Date Report Delivered to Congress: August 8, 2018.

*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Mexico—Evolved Seasparrow Missiles

The Government of Mexico has requested to buy six (6) Evolved Seasparrow tactical missiles (ESSM) and two (2) Evolved Seasparrow telemetry missiles. Also included are one (1) MK56 VLS launcher (8-cell), eight (8) MK30 canisters, eight (8) MK783 shipping containers, spare and repair parts, support and test equipment, publications and technical documentation, training, USG/Contractor technical and engineering support services, and technical assistance. The total estimated value is \$41 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a strategic regional partner. The sale of these shipboard systems to Mexico will significantly increase and strengthen Mexico's maritime capabilities. Mexico intends to use these defense articles and services to modernize its armed forces and expand its existing naval and maritime support of national security requirements.

Mexico intends to use the weapons systems on its Sigma 10514 Class ship. The systems will provide enhanced capabilities in effective defense of critical sea lanes. The proposed sale of these systems and support services will increase the Mexican Navy's maritime partnership potential and align its capabilities with existing regional navies. Mexico has not purchased these systems previously. Mexico will have no difficulty integrating this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems, Tucson, Arizona. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and/or contractor representatives to Mexico.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 18-29

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The sale of Evolved Seasparrow missiles (ESSM) under this FMS case will result in the transfer of classified missile equipment to Mexico. Both classified and unclassified defense equipment and technical data will be transferred. The missile includes the guidance section, warhead section, transition section, propulsion section, control section and Thrust Vector Control (TVC) of which

the guidance section and transition section are classified CONFIDENTIAL. Standard missile documentation to be provided under this FMS case will include:

a. Parametric documents (CONFIDENTIAL)

b. Missile Handling/Maintenance Procedures (UNCLASSIFIED)

c. General Performance Data (CONFIDENTIAL)

d. Firing Guidance (CONFIDENTIAL)

e. Dynamics Information (Confidential)

2. The sale of the Evolved Seasparrow Missiles (ESSM) under this FMS case will result in the transfer of sensitive technological information and/or restricted information contained in the missile guidance section. Certain operating frequencies and performance characteristics are classified SECRET because it could be used to develop tactics and/or countermeasures to reduce or defeat the missile effectiveness.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, primarily performance characteristics, engagement algorithms, and transmitter specific frequencies, the information could be used to develop countermeasures that might reduce weapon system effectiveness.

4. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Mexico.

DEFENSE SECURITY
COOPERATION AGENCY,
Arlington, VA.

Hon. BOB CORKER,
*Chairman, Committee on Foreign Relations,
U.S. Senate, Washington, DC.*

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 18-27, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of the Netherlands for defense articles and services estimated to cost \$169 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

CHARLES W. HOOPER,
Lieutenant General, USA, Director.

Enclosures.

TRANSMITTAL NO. 18-27

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: The Government of the Netherlands.

(ii) Total Estimated Value:

Major Defense Equipment * \$122 million.
Other \$47 million.

Total \$169 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):

One hundred six (106) MK 54 Lightweight Torpedo Conversion Kits.

Non-MDE: Also included are torpedo containers, Recoverable Exercise Torpedoes (REXTORP) with containers; Fleet Exercise Section (FES) and fuel tanks; air launch accessories for rotary wing aircraft; torpedo launcher interface cabinets; ground handling equipment; torpedo spare parts; training; publications; support and test equipment;

U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support.

(iv) Military Department: Navy (NE-P-LHP).

(v) Prior Related Cases, if any: None.

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: None.

(viii) Date Report Delivered to Congress: July 31, 2018.

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

The Netherlands—MK 54 Lightweight Torpedoes

The Netherlands requests to buy one hundred six (106) MK 54 conversion kits. Also included are torpedo containers, Recoverable Exercise Torpedoes (REXTORP) with containers; Fleet Exercise Section (FES) and fuel tanks; air launch accessories for rotary wing aircraft; torpedo launcher interface cabinets; ground handling equipment; torpedo spare parts; training; publications; support and test equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated program value is \$169 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a NATO Ally, which is an important force for political stability and economic progress in Europe.

The Royal Netherlands Navy intends to upgrade its current MK 46 torpedoes to the MK 54 with the purchase of these kits. The Netherlands will have no difficulty absorbing the MK 54 torpedoes.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Integrated Defense System, Portsmouth, Rhode Island. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Netherlands; however, U.S. Government Engineering and Technical Services may be required on an interim basis for installations and integration.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 18-27

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The MK 54 Torpedo is a conventional torpedo that can be launched from surface ships, helicopters, and fixed wing aircraft. The MK 54 is an upgrade to the MK 46 Torpedo, which is currently in-service in Netherlands. The upgrade to the MK 54 entails replacement of the torpedo's sonar and guidance and control systems with modern technology. The new guidance and control system uses a mixture of commercial-off-the-shelf and custom-built electronics. The warhead, fuel tank and propulsion system from the MK 46 torpedo are re-used in the MK 54 configuration with minor modifications. There is no sensitive technology in the MK 54 or its support and test equipment. The assembled MK 54 torpedo and several of its individual components are classified CON-

FIDENTIAL. The MK 54 operational software is classified as SECRET. Netherlands will not be provided with the source code for the MK 54 operational software.

2. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the Government of the Netherlands can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Netherlands.

TAX REFORM

Mr. RISCH. Mr. President, as you know, late last year, Congress passed the Tax Cuts and Jobs Act. As chairman of the Senate Committee on Small Business and Entrepreneurship, I supported this legislation because of its potential to spur investment, stimulate economic growth, and ease the tax burden on millions of small businesses. While our economy continues to grow, small businesses often don't receive due attention for their accomplishments and contributions. Owners and employees of small businesses nationwide continuously display resilient attitudes and a tenacious work ethic, proving that the American entrepreneurial spirit is alive and well. This law gives Americans the tools they need to grow and flourish, and their success stories encouraged me to begin this series of speeches highlighting the ways tax reform benefits small businesses.

Today, I am pleased to share the story of Centennial Bolt, INC, located in Denver, CO. Founded in 1979 by Mark Cordova, Centennial Bolt specializes in manufacturing top-of-the-line fasteners. The Cordova family story serves as an inspirational example for hardworking American families. From humble beginnings, Mark's father, Moses, worked his way to a managerial position at Triangle Steel, Inc., and started his own business, Cordova Bolt, in San Diego, CA. After graduating from the University of San Diego, Mark moved to Denver and followed in his father's entrepreneurial footsteps by founding Centennial Bolt. This business became the premier fastener company in the Rocky Mountain region because of its ability to assist clients with projects of all shapes and sizes. After years of hard work and perseverance through tough economic times, Mark is now the CEO of both Cordova and Centennial Bolt.

Tax reform's impact on Centennial Bolt and other small businesses nationwide cannot be overstated. Changes in the tax law offer necessary relief to both Centennial Bolt's employees and

their families. Due to an increase in savings from tax reform, Mark plans to expand his workforce from 50 to 65 employees, while increasing employee salaries. This past year, the company surprised all 50 of its employees with an unexpected Christmas bonus for their hard work. In order to compete on a larger scale, Mark also plans on reinvesting the company's savings from tax reform into an additional facility and existing infrastructure upgrades. Across the country, tax reform continues to provide owners and entrepreneurs with increasing opportunities that help them and their employees to realize their dreams.

Mark is optimistic about his company's future and believes the benefits his company receives from tax reform will give Centennial Bolt a competitive advantage. They are one of the many small businesses nationwide that can now more freely raise salaries, hire new employees, and compete with larger businesses in their industries. As tax reform continues to drive our economy forward, I will continue to acknowledge its positive impact on small businesses. I am proud to recognize Centennial Bolt and all of the small businesses that are thriving as a result of tax reform, and I look forward to watching the continued growth of the American small business community.

REMEMBERING RONALD V. DELLUMS

Ms. HARRIS. Mr. President, our Nation mourns the loss of one of California's greatest civil rights leaders, whose nearly three decades in Congress and many more years in public service helped to shape the lives of countless individuals both at home and abroad.

Ron Dellums was born the son of a longshoreman and raised in Oakland, CA, a community he would later come to represent both as a Member of Congress and as mayor. A 1953 graduate of Oakland Technical High School, Ron enlisted in the Marine Corps in 1954, where he served for 2 years, before graduating from San Francisco State College in 1960 with a degree in psychology. Two years later, Ron received a master's degree in social work from the University of California, Berkeley.

Immediately following graduate school, Ron immersed himself in public service, first through a series of social work jobs at the California Department of Mental Hygiene, and, eventually, as an elected member of the Berkeley City Council in 1967. As councilman, Ron became an outspoken advocate for historically underrepresented and underserved communities in Berkeley and Oakland, in addition to becoming an anti-war advocate.

The convergence of the free speech and anti-war movements in the Bay Area in the 1960s drove Ron to launch a campaign for Congress on a platform for civil and human rights. He was elected to Congress in 1971 as the first African American from northern California. For the next 27 years, Ron
